## NEON LAMP AND RESISTOR ASSEMBLY SPECIFICATIONS SHEET

**Part Number :**

	A	B	C	D	E	F
Dimension						
Tolerance						

Joint Method: Neon+Resistor by;    a Butt-Weld        a Crimping        a Solder

Neon Lamp type:	a Standard brightness	a High Brightness
Resistor:		
Wattage:		
Supply Voltage:	a 110/130 VAC	a 220/240 VAC
Quantity per release:	EAU:	

Joint between lamp and resistor to be butt welded. Weld to withstand flexing over a .25" Diameter rod without tensile force, without breaking.
